About the Product

A large screen displaying a landscape of mountains and water at sunset. The screen is framed by a dark bezel.

95% Screen Surface

Ultra-thin
110mm Bezel

Sleek Screw-less Fabric Design

About the Product

Adaptive Brightness

- Intelligent Auto-Adjustment
- User-Friendly

Port Type-C

- Ultra-Fast Storage Access

Front Buttons and Ports

- Easy Access
- User-Centric Design

About the Product

- Fully Integrated 2X30W Speakers
- Vibration Absorption System
- Frequency 180Hz- 20000Hz | 90dB

Highly Integrated

- Quick and Simple Installation
- Easily Front Serviceable
- Higher Reliability

Receiving Unit:

- Power supply
- Receiving Card
- HUB Board

I/O Ports:

- 3x HDMI Inputs
- 1x HDMI Output
- 1x Optical Audio Port
- 2x Audio 3.5mm
- 1x RS232
- 1x Wi-Fi 2.4G - 5G
- 1x LAN Port
- 1x USB - Type C
- 1x USB 2
- 1x USB Bluetooth 3.0

Speaker 2x30W

- 2 Channels

Power Unit

- Power supply
- Amplifier
- Silicon Controlled Rectifier

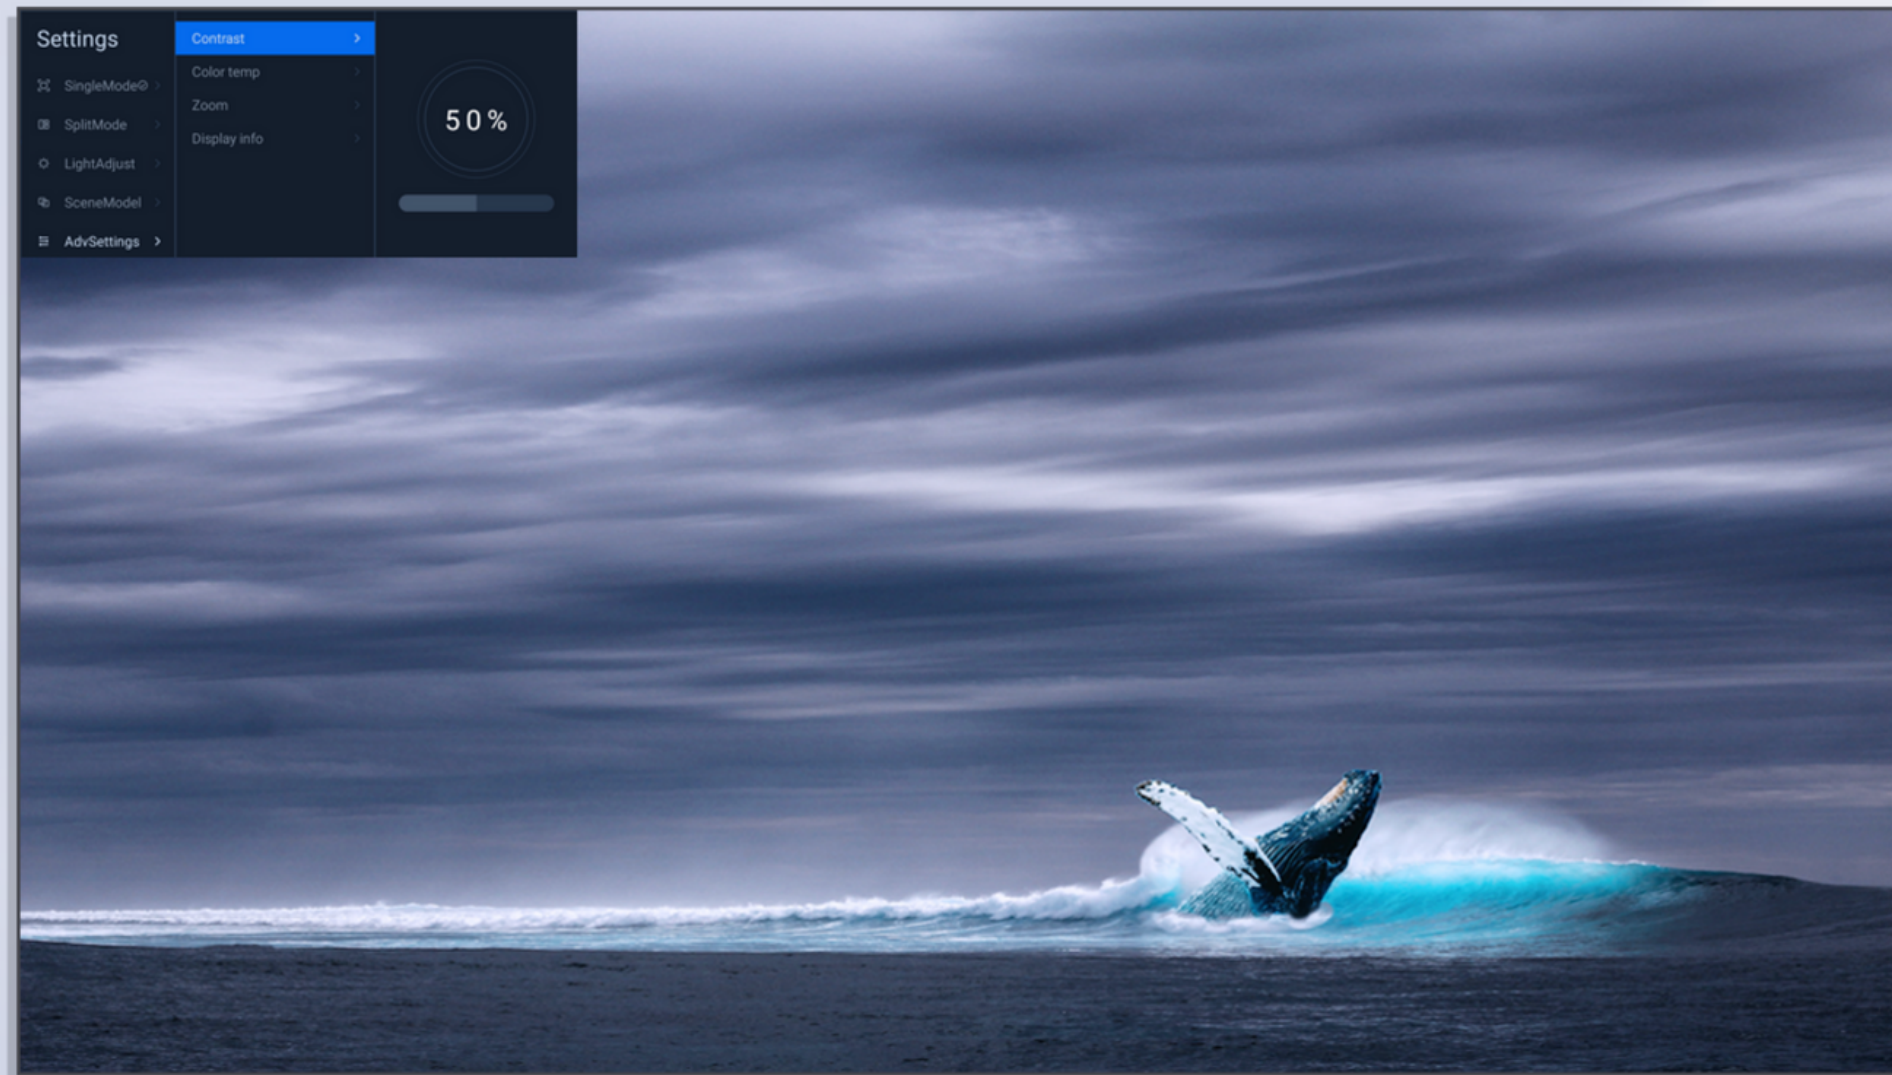

Control Unit

- Sending Card
- Android Card
- Video Processor

Speaker 2x30W

- 2 Channels

- Support OSD Menu
- User-friendly Operation

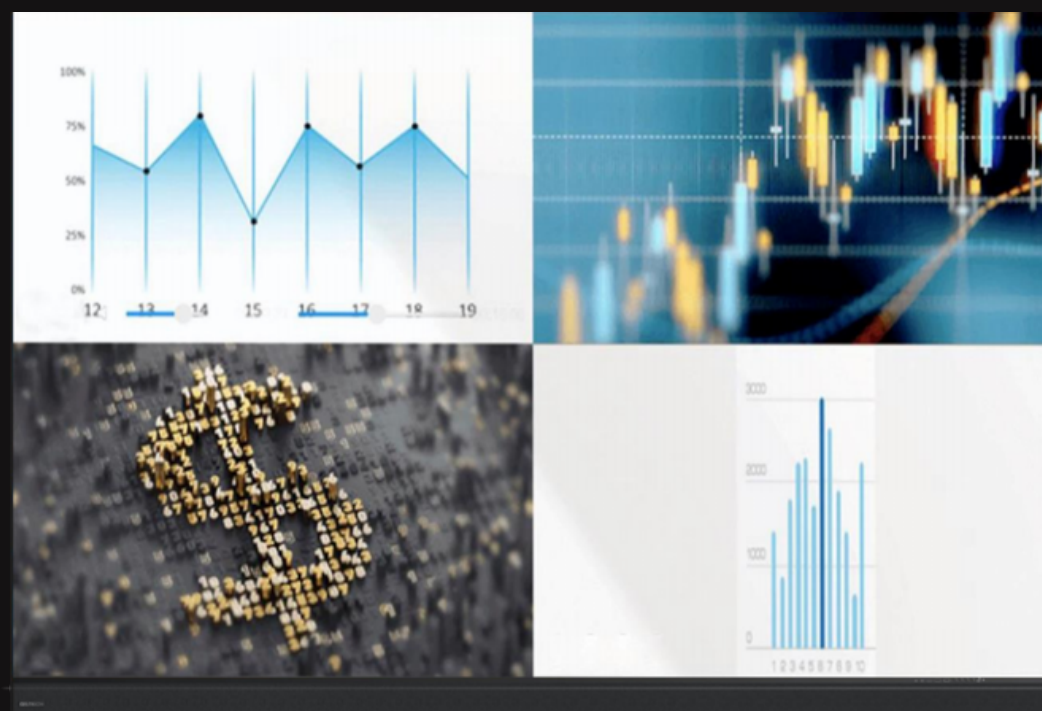

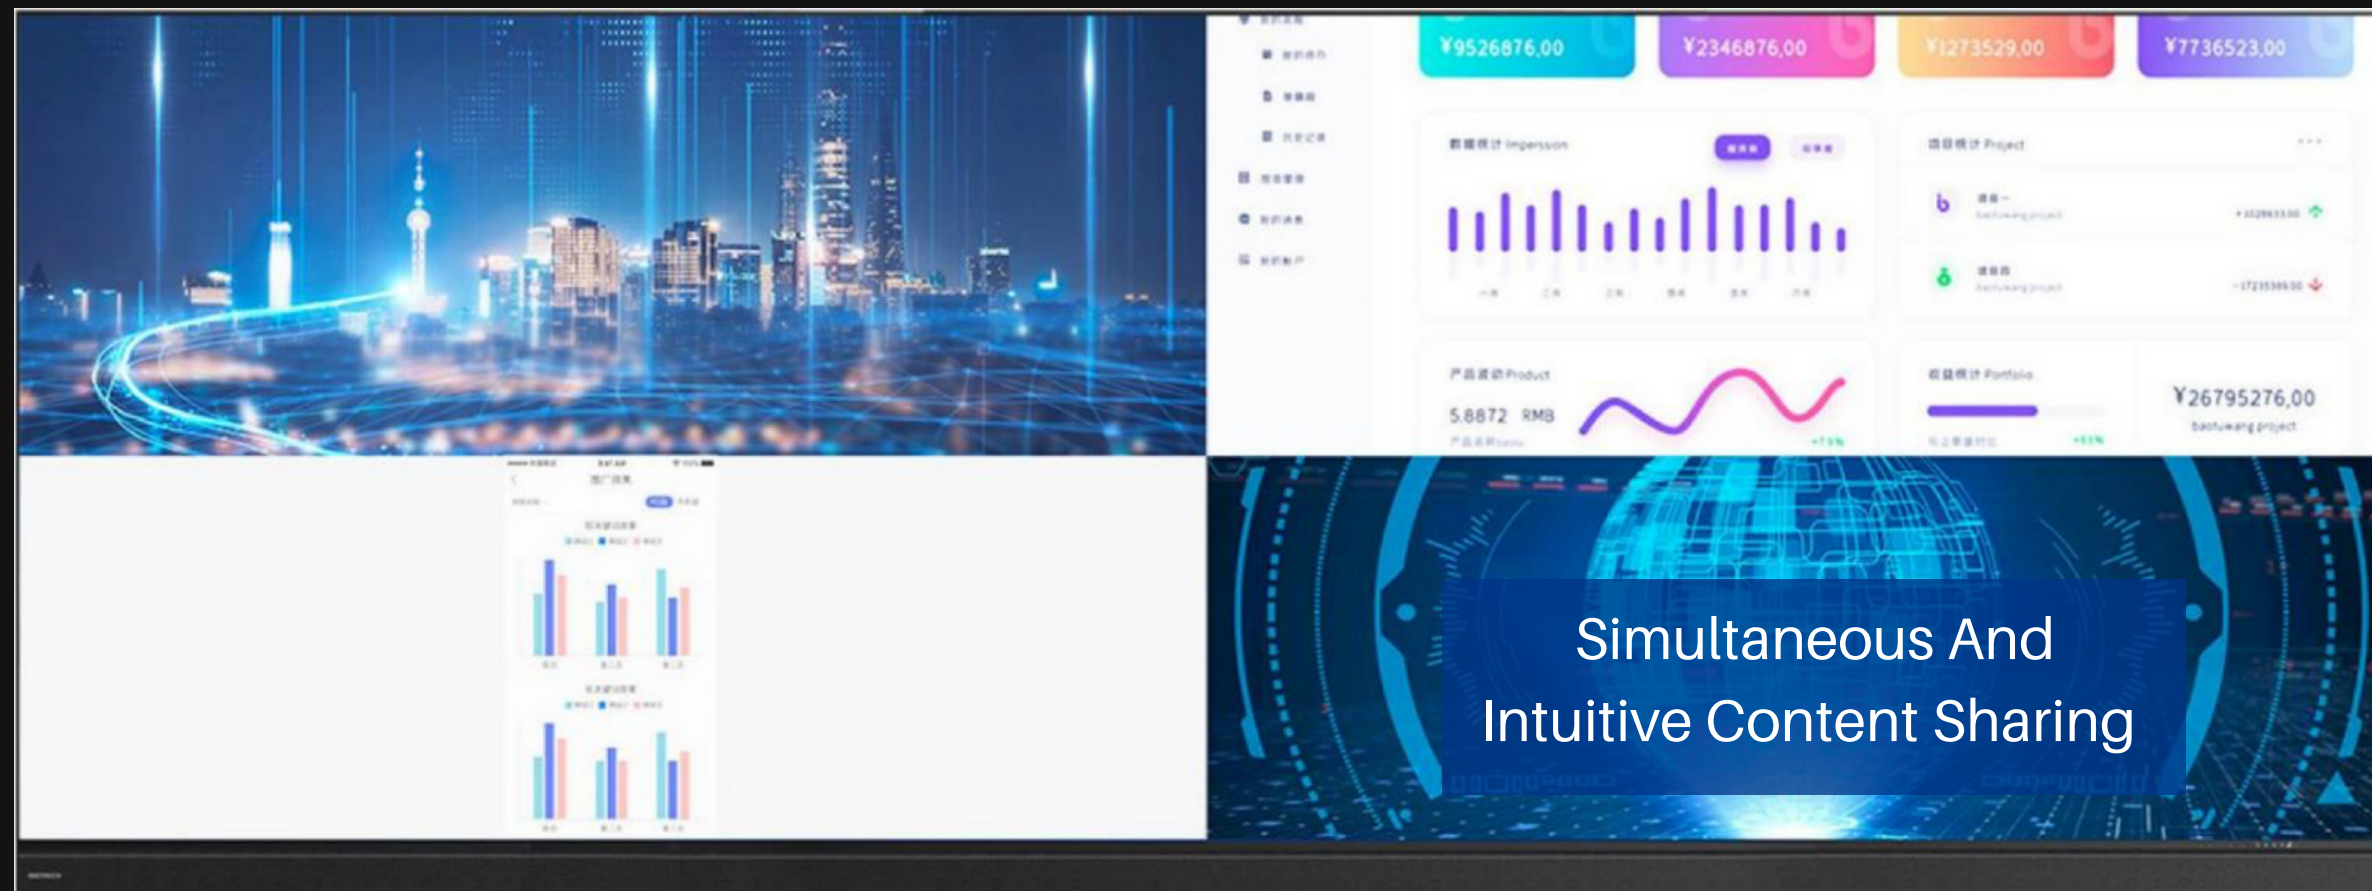

Built- In Multi-Signal Processing

The interface is displayed on a large screen with a blue background. It features several overlapping settings panels and a central content area. The settings panels include:

- Settings (Top Left):** A menu with options: SingleMode, SplitMode, LightAdjust, SceneModel, and AdvSettings. The 'Pic' dropdown is set to 'Android'.
- Settings (Top Middle):** A menu with options: SingleMode, SplitMode, LightAdjust, SceneModel, and AdvSettings. The 'SplitMode' dropdown is set to 'SplitMode1'.
- Settings (Top Right):** A detailed settings panel for 'SplitMode1' showing a 2x2 grid layout with 'Pic 1' and 'Pic 2' both set to 'Android'.
- Settings (Middle Right):** A detailed settings panel for 'SplitMode2' showing a 2x2 grid layout with 'Pic 1', 'Pic 2', and 'Pic 3' all set to 'Android'.
- Settings (Bottom Right):** A detailed settings panel for 'SplitMode4' showing a 2x2 grid layout with 'Pic 1', 'Pic 2', 'Pic 3', and 'Pic 4' all set to 'Android'.
- Settings (Bottom Right):** A detailed settings panel for 'SplitMode3' showing a 2x2 grid layout with 'Pic 1', 'Pic 2', 'Pic 3', and 'Pic 4' all set to 'Android'.

The central content area shows three icons: 'Welcome', 'ScreenShare', and 'Explorer'. Below these icons, the text 'Welcome', 'ScreenShare', and 'Explorer' is displayed. At the bottom center of the screen, there is a white circle containing four dots. The 'OSTECH' logo is visible in the bottom left corner of the screen.

HyperWall Standby Power Consumption at 0.5W

The software embedded in the HyperWall intelligently adjusts power based on detecting the actual working condition of the screen.

If the display remains inactive for an extended period, it will automatically switch to deep standby option. Additionally, the screen brightness will be adjusted according to the surrounding lighting conditions, ultimately leading to energy savings overall.

Controlled Electricity Consumption

Energy Saving

Aspect Ratio	16:9			32:9			
Size Inches	120"	138"	165"	220" 4K UHD	199"	249"	299"

Standby Mode Power Electrical (W)	≤0.5						
Maximum Power Consumption Per Screen (kW)	1.85	1.99	2.83	6.02	3.10	4.38	5.66
Typical Power Consumption Per Screen(kW)	0.74	0.68	1.13	2.48	1.24	1.49	2.26

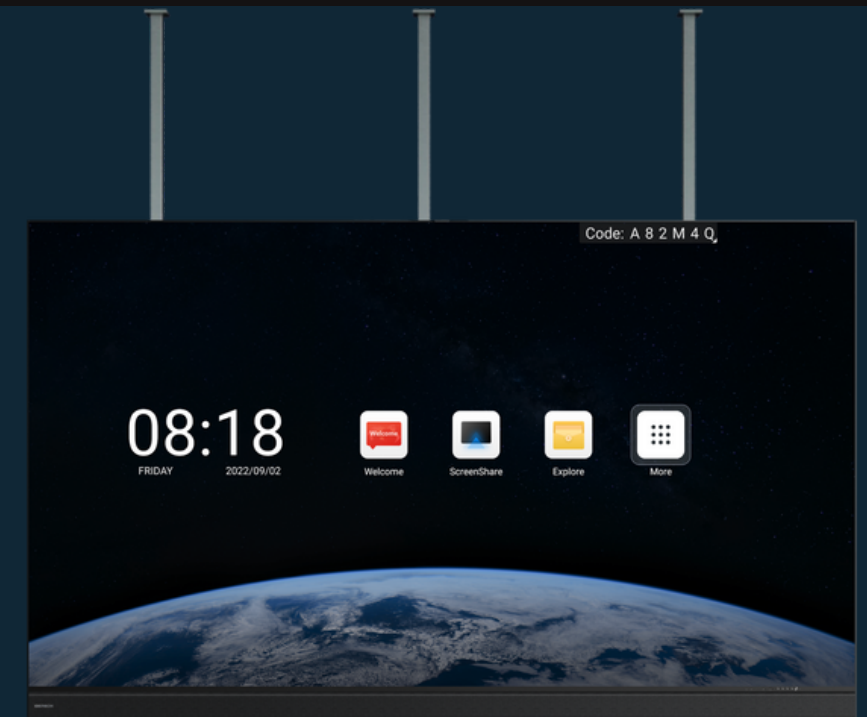

Installation Options

Wall-mounting Installation

On-stand

Hanging Installation

Convenient Installation & Maintenance

2-Year Warranty

- The structure is built with lightweight material making it easy to assemble, needing less support to hold it up.
- The Installation process is done fast and easy taking up less space at the location.
- Maintenance can be easily conducted from the front end.

Efficient Installation

- Standard wall-mounting installation option using high-strength hooks
- Display column pre-assembled before delivery to enhance on-site installation efficiency
- Simple installation procedures without the need for electric welding, saving time and labor.

Application Options

The All-In-One HyperWall screen size options are suitable for various room sizes and applications.

HyperWall-12013 & HyperWall-12020
All-In-One Large Format LED Display Console

- Support video conference;
- Built-in 2*30W audio system;
- Built-in video processing function;
- Support frame rate conversion function;
- Support remote control via mobile devices;
- Support wireless Screen Sharing Function;
- Support Bluetooth 3.0 Function;
- Support various scene options for different application scenarios;
- Support automatic brightness adjustment;
- Overall standby power consumption is $\leq 0.5W$.
- Fully front access and hot swapping are available.
- It supports Wi-Fi dual frequency 2.4G/5G.
- Supports adjustment options via Wi-Fi, network cable, and USB connection.
- Built-in Android 9.0 system and Apps.
- All-in-one ultra-slim and lightweight design.
- Built-in RS232 and RS485 interfaces that can realize centralized control functions.
- Meets the RoHS directive requirements.

Product Specifications

Overall Parameter		Electrical Parameter	
Size	120 inch	Operation Voltage	100-240VAC 50/60Hz
Aspect Ratio	16:9	Standby Power	≤0.5W
Resolution	1920*1080	Average Power	0.74KW
Overall Size (L*H)	2678*1616mm	Maximum Power	1.85KW
Display Area (L*H)	2664*1499mm	System Parameter	
Screen Thickness	28.5mm	Operating System	Android 9.0
Net Weight	90kg(wall-mounting bar and stand not included)	CPU	Dual Cortex-A72 large core + four Cortex-A53 small core, frequency 2.0GHz
Recommended Viewing Distance	≥2.6m	RAM	4GB
Maintenance Mode	Front Access	Storage	32GB
Installation Mode	Stand, Wall-mounting, Ceiling-hanging	Media Format	Support mainstream video format such as MPEG1, MPEG2, MPEG4, WMV, MKV, TS, and flv; Support audio formats such as MP3; Support JPG, JPEG, BMP, PNG, GIF and other image format.
Optical Parameter		Environmental Parameter	
Brightness	100-550cd/m ² (Adjustable)	Operation Temperature	-10℃-40℃
Refresh Rate	1920/3840Hz	Operation Humidity	10%-80%RH No condensation
Gray Scale	13-16bit		
Contrast	3000:1		
Color Temperature	2300-9300K(adjustable)		
Viewing Angle	Horizontal 160°, Vertical 140°		
LED Lifespan	≥100,000hrs
